### OUR OREGON GROWN BULBS

This year we are offering, for the first time, a very complete list of tulip bulbs all of which have been produced here in the famous Willamette Valley. Our soil and climate are such as to produce the very finest bulbs, both as to size and quality, the same ripening nearly a month earlier than the Holland or English product. We are thus able to fill orders several weeks earlier than they can be laid down from the Old Country. Ordinarily we start shipping our wholesale orders shortly after August 1st and can ship even earlier by special arrangement.

Our plantings this Fall will approximate ten acres, nearly evenly divided between tulips and narcissi. We are purposely with-holding any offerings on Narcissi this Fall as stocks are still available in the Old Country. Next season we will offer a very complete line of Narcissi as well as several new varieties of tulips.

We are always glad to have any of our customers, actual as well as prospective, pay us a visit and shall at any time deem it a privilege to make you personally acquainted with our crops and the way they are produced.
